

Keystone Communications offers KEYTV video service to our Keystone, Garrison and Elberon customers, both residential and rural. Installation is \$35.00, which will give the customer 2 streams (TV sets) of video for a monthly fee. Additional TVs may be installed, and will have additional monthly charges. You may subscribe to either a Lifeline package for \$40.01/month, or a Basic package for \$77.01/month. We have several movie packages and DVR service options, all for additional monthly fees. We do require the installation and 1 month of service paid in advance, and you do need to be a customer with landline telephone service. Please look at the channel lineup to see which packages and options you are interested in purchasing.
