

To view the local weather, you can press the red color navigation button. (Far left button in the row with #4) After bringing up the weather you can hit the yellow button to bring up the radar. You may also access the weather by going into the menu and apps.

You can also play games by hitting the yellow button, clicking on games and going through the prompts.

To turn closed captioning or subtitles on and off, press the text button in the lower left. (#20)

There are many more features that you can access by hitting the menu button and going through the menus, but these are features that you didn't have on our old system.

If you happen to get anything up on the screen that you no longer want up there, you can press the X button (#7) to get out of it and back to watching TV.
